## Childcare, here's why Our top 5!

Childcare is not just for moms and dads! Of course, you and your partner can go to work or study with peace of mind thanks to our good care. But did you know that childcare also has many advantages for your child?

#### 1. Playing together

Gaining social experiences and skills, such as building friendships, playing together, taking others into account and getting to know different norms and values.

#### 2. Babbling & Counting

Reading, singing songs, playing games and arts and crafts: all these activities promote language development and by playing games your child learns to count.

#### 3. The world is beautiful

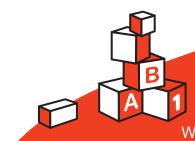

Childcare teaches children that the world is bigger. They feel safe and comfortable and dare to explore.

#### 4. Plenty of exercise

Exercising and playing outside are healthy, fun and good for motor skills. At every location, there are sufficient sports equipment and at many locations there is a piece of nature to play in.

#### 5. Copying

Children are more likely to imitate other children than adults. At daycare, toddlers see others getting dressed by themselves or sitting neatly at the table. They will then start doing those things themselves!

## Who is DAK kindercentra?

DAK kindercentra have been offering professional childcare in The Hague, Voorburg and Rijswijk for children between 0 and 13 years old for over 100 years.

We know that children are real explorers. By playing they discover themselves and the world around them. Their hidden talents, different ideas and new flavours.

**The right guidance** is very important in this. With great pleasure and with respect for their own pace and ideas.

Every child receives plenty of loving and personal attention at DAK. We have an eye for all children and their development route through life.

We have one clear pedagogical vision and continuously train our employees to match it.

We like to seek the connection with you as a parent to see what your child needs. So that you can go to work or study with peace of mind. And they can get off to a good start for the rest of their life...

Loving attention to you and your child

More than 100 years of quality

Partner in child development

**Developing** through play

In your neighbourhood

### Discover our childcare

#### **Daycare centre** 0 to 4 years

At the daycare centre, we offer a warm environment in which children discover themselves and the world around them. Just like at home, we adhere to the rhythm of your baby. As they get older, we gradually transition to the rhythm of toddlers. The children then have fixed times during the day when they eat, sleep and play together.

#### **Toddler care**

#### 2 to 4 years

Do you find it important that your toddler prepares well for school and practices social skills? Toddler care is the way to play with others, learn together and get used to the rhythm of primary school.

PS: Did you know that almost all parents are entitled to compensation for the costs of toddler care from the age of 2.5? Isn't that nice? Also, read our Preschool Education (VE) brochure for more information.

#### **Preschool Education (VE)**

We offer Preschool Education at a number of daycare and toddler care locations. This gives your child the best start at primary school. Read our VE brochure for more information.

#### **Out-of-school care**

#### • 4 to 13 years old

What could be better than a nice comfy sofa to relax on after a busy day at school? But of course, also friends with whom you can experience all kinds of exciting adventures! And discover new talents. Our out-of-school care meets the needs of school-aged kids. A loving place, a challenging environment, but above all a lot of fun!

## Childcare costs More affordable than you think!

The exact cost of childcare differs per family and per situation. In addition, most parents are entitled to a childcare allowance.

How much allowance you receive and how much you ultimately pay depends on several factors. For example, the number of hours that your child goes to daycare per month, what the hourly rate of the chosen childcare organisation is and what the family income is.

#### **Calculation tool**

Do you want to know how much childcare will cost in your situation? Then use our handy calculation tool. This allows you to quickly and easily calculate an estimate of your monthly childcare costs. Go to www.dakkindercentra.nl/kosten/ rekentool/

## Register Online or by phone

#### **Register for free**

Registering with DAK childcare centres is free of charge and can be done via the website or by telephone with our Customer Advice department (088 750 91 10).

Would you rather come and get a feel for the atmosphere first? You are of course very welcome! Then go to: www.dakkindercentra.nl/ rondleiding-aanvragen/

Childcare locations may have a waiting list. That is why we recommend that you register your child as soon as possible. Of course, it would be a shame if your child could not go to your preferred location.

#### **FYI (For Your Information)**

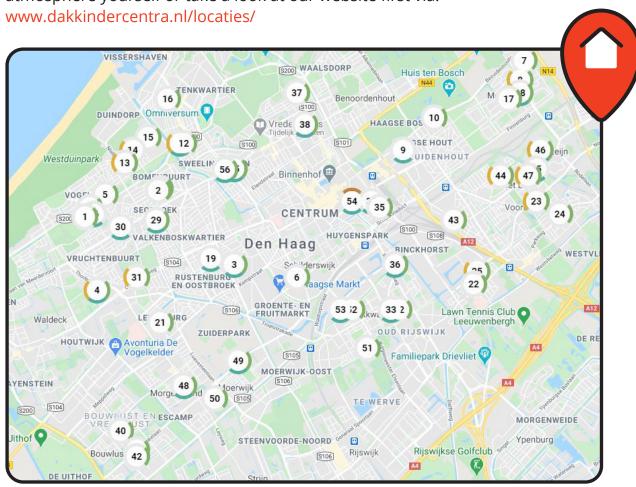

After registration, our Customer Advice department will contact you as soon as possible to go through everything.

We look forward to welcoming you and your child to one of our locations!

# Our locations Always near you!

Are you curious about one of our locations? Then come and get a feel for the atmosphere yourself or take a look at our website first via:

## **Experience the best** moments yourself!

Your child learns and discovers new things every day. These magical moments bring a smile to our faces again and again. With the parent portal (app and web portal) and our social media, we can also share these beautiful moments with you during your working day.

Also, follow us on social media for all kinds of useful tips and fun facts!
